

# SAVE TIME AND MONEY WITH INTELLIGENT FOG CANNON™ MONITORING

There are several ways to keep track of whether the Fog Cannons™ keep up top performance or possibly need a technician. The solutions can be manual control or fully automated monitoring with feedback provided to the users about any potential error or activation. In the chart, you will be able to see what type of solution you should choose in order to achieve the desired control of the Fog Cannons™.

Different ways to access the PROTECT Fog Cannons®	IntelliSuite™ (remote connection via IPCard™)	IntelliSuite™ (connection onside with the Intelli-Connector™ cable)	IntelliCloud™ (Service Reporting System)*	IntelliMon™ (Local Monitoring Tool)*	API (Application Programming Interface)
